DETAILED ACTION***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 7/6/2007 has been entered. Currently claims 1-8,10,15-21 and 23-28 are pending, claims 9, 11-14 and 22 are cancelled.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-8, 10, 15-21 and 23-28 are rejected under 35 U.S.C. 103(a) as being unpatentable over Luciano, Jr. et al. (US 6,887,154 B1) in view of Acres et al. (US 5,655,961).

Re claim 1, Luciano teaches a method of playing a gaming system played by a plurality of players where a jackpot is awarded, the method comprising: players playing an underlying wagering game in which wagers are made by players; when an outcome occurs in the underlying wagering game that identifies that a jackpot is to be awarded to

Art Unit: 3714

at least one of said players, entering a special bonus event for all of said players presently playing the underlying wagering game (abstract, col 2: 20-67; col 3, 1-17; col 4, 29-60; col 6: 32-49), the special bonus event providing a chance to be awarded bonuses; However Luciano does not explicitly teach randomly selecting bonuses to be awarded in the special bonus event; and randomly selecting more than one but less than all of said players to be awarded the randomly selected bonuses, said randomly selected bonuses being in addition to any awards some of said players may win continued play of the underlying wagering game. Luciano teaches that players who have an active status at the time of the progressive award triggering event are entitled to share in the secondary progressive prize (col 3: 1-13) are analogous to all of said players presently playing the underlying wagering game. Acres teaches that after specific trigger events, randomly selecting bonuses to be awarded in the special bonus event; and randomly selecting more than one but less than all of said players to be awarded the randomly selected bonuses (col 25, 25-col 26, 46). It would have been obvious for one of ordinary skill in the art at the time of the invention to have thought about the different distribution to attract additional players to the machine as stated by both Acres and Luciano.

Claims 2-8, 10, and 15-20 have been addressed in the previous action and are also rejected by Luciano in view of Acres, specific sections cited in the previous action.

Claims 21 and 23-28, the method of playing a gaming system played by a plurality of players where a jackpot is awarded is substantially the same as claims 1-8, 10, 15-20 discussed above and will not be repeated herein.
